

**CHIPS, THE KEEDY DOG**, with Morgan Keedy and Jack Keedy, who all three received diplomas from Muddy grade school last week. Morgan holds Chips' diploma. Principal Ben Brinkley, who awarded the diplomas, stands in the background. (Daily Register Staff Photo)

## Six Years' Attendance

### Chips, Big Keedy Dog at Muddy, Receives His Graduation Diploma

Will it be "Goodbye, Mr. Chips," now that he has received his diploma? Only next school term will tell.

Chips, the Keedy dog at Muddy, a big, light-colored shepherd, received his diploma along with the rest of the eighth grade graduates at Muddy school last week along with his two masters, Jack and Morgan Keedy.

Only Chips wasn't there in person to receive the diploma from the school principal, Ben Brinkley. Mr. Brinkley presented it to Mr. and Mrs. D. A. Keedy, parents of the two boys who were in the graduating class.

It was a bona fide diploma, signed and everything, just like the pupils received.

**Good Manners**

How come Chips got the diploma along with the class?

Mr. Brinkley said the big animal had been coming to school for the past six years.

"He came in and lay in the hall," Brinkley stated. "Nobody objected because he didn't bark or cause a bit of trouble. In fact, his manners were better than some of the children."

"He wouldn't go into a classroom unless somebody called him. Then he'd go in. He always came into the building through the rear door."

"All the children liked him," Mr. Brinkley continued. "Whenever they would go to the store

for ice cream or candy, they would bring some for Chips, too."

#### 10 Graduate at Muddy

Chips came to the Keedy home, which is near the school, six years ago, when David, one of ten Keedy children who now have graduated from Muddy school, was in the seventh grade.

When Mrs. Keedy was asked the age of the dog she said she didn't know exactly but that it was nearly grown when it came there six years ago.

"He's old enough to get through school," she commented dryly.

The Keedys have had seven boys and three girls graduate from Muddy school and David this year was graduated from Pekin, Ill., high school with high honors, being elected to the National Honor Society.

Reason he was graduated there was that the Keedys went to the Peoria area for work and lived there when he was a freshman and sophomore. David stayed on there with a sister, going to high school and working at the Caterpillar plant at Peoria.

**Father a Retired Miner**  
In fact, four sons, two sons-in-law, one daughter, and two daughters-in-law are all at Caterpillar. "They might have to shut down if they all quit," Mrs. Keedy laughingly commented.

Morgan and Jack are the last of the Keedy family to graduate at Muddy. Some of the ten have had perfect attendance for eight years; others have been the highest in the class. But none except Chip has got a diploma in six years.

Mr. Keedy is a retired coal miner.

"I was a miner for 45 years," he said. "I spent 15 years of that time, working, 15 years on strikes and 15 years of the time the mines were shut down."

## Jim Catlin to Receive Dental Degree At U.I. Graduation Exercises June 21

It's been a long hard pull for Jim Catlin, former Harrisburg all-state football player, but at University of Illinois graduation exercises at Chicago June 21 he will become Dr. James M. Catlin, dentist.

During his eight years of study at the University of Illinois, both at Champaign and Chicago, he has been a waiter, construction worker and taxi driver.

But the 26-year-old student will leave all these jobs behind him when he picks up his diploma from the University College of Dentistry at Chicago's Navy Pier.

While an undergraduate at Champaign, Catlin also found time to win a letter on Coach Ray Eliot's 1952 football team.

"When you have a wife and two kids and want to get an education," he said, "you don't have much choice but to be a jack-of-all-trades."

Jim, son of the late Clarence and Mabel Catlin, was president of the Junior class in dental school and held various other school and fraternity offices. He will enter the army as second lieutenant

## House Approves Revolving Fund To Build Schools

### Bill Giving Governor Power to Probe State Offices is Killed

SPRINGFIELD (UP) — Bills for a 10 million dollar revolving fund to help poorer school districts build classrooms went to the Senate today with House approval.

Two other major bills were killed in the House. One would have given the governor power to investigate the offices of other elected state officials, and the other would have banned Sunday sales of automobiles.

The 10 million dollar revolving fund, passed Wednesday in the House, was part of Gov. William G. Stratton's program.

Elementary school districts which have exhausted their bonding power would be able to borrow from the fund to finance construction of new buildings.

The school districts would pay an annual rental fee on the new buildings and after the rental fees had made up the amount of money borrowed for construction, the schools would be turned over to the local districts.

#### Too Much Power

The School Problems Commission originally asked for 12 million dollars for the fund, but Stratton cut it to 10 million. He vetoed a similar bill in 1955.

The bill to give the governor authority to investigate the finances and management of other state officials and agencies was introduced as a Hodge scandal reform measure. It had already passed the Senate.

But the House killed the bill on grounds it would concentrate too much power in the hands of the governor. Rep. Edward C. Eber-spacher (D-Shelbyville) said the governor would be able to use such power to destroy other state officials who might be his political opponents.

The bill banning Sunday sales of automobiles was sponsored by Rep. John W. Carroll (R-Park Ridge). It was headed for certain defeat when he withdrew the bill and asked to postpone consideration.

This kept the bill alive, but only technically. Opponents said such legislation would invade the field of morals and "coerce the conscience" of persons who did not hold Sunday as a Holy day.

The Senate passed and moved to the House a bill appropriating the 317 million dollars budgeted by Stratton for the Public Aid Commission over the next two years.

#### Increase Auditor Bond

The appropriation is 50 million dollars less than the commission said it would need. The commission has drawn much criticism this session because of rising relief costs and is fighting for its very life against a bill that would abolish it and replace it with a department headed by a single director.

The House passed to the Senate a Hodge scandal reform measure to increase the surety bond required of the state auditor from \$50,000 to \$500,000.

## Hurt In Dive Into Empty Swimming Pool

PACHUCA, Mexico (UP) — Near-sighted Raul Mariel Cruz, 16, was in a hospital today with a broken arm and broken collarbone suffered when he dove into an empty swimming pool.

## FDR Jr., Elliott Bruised in Crash Of Light Plane

FORT SCOTT, Kan. (UP) — Franklin D. Roosevelt Jr. and his pilot brother, Elliott, were bruised Wednesday when their light plane hit a fence on takeoff from the Fort Scott Airport.

Neither was seriously injured. Elliott Roosevelt said the plane developed a brake drag and was slowed by a puddle of water on the wet runway. When he saw takeoff was impossible, he said, he cut the engine.

The Beechcraft Bonanza, a four-passenger plane, was damaged in the nose and wings.

Two passengers, James Smith Jr., manager of Franklin Roosevelt's ranch near Ponghuag, N. Y., and D. W. Chittenden, executive secretary of the American Polled Hereford Assn., were also unharmed.

Elliott is in the cattle business at Meeker, Colo.

## Rice Sisters Resign at HTHS

### Librarian Also Quits; Henson Adds Two Members

Misses Kathryn and Louise Rice, sisters who have been Harrisburg Township high school teachers for three decades, have turned in their resignations to Principal Eltis F. Henson.

Their resignations said that they were resigning purely for personal reasons, that they had enjoyed teaching at HTHS.

Reports were that the two will teach in the Decatur high school system next year.

Miss Kathryn Rice, who teaches art and history, has been on the HTHS faculty for 30 years and Miss Louise Rice, Latin teacher, has been here 29 years.

Principal Henson also revealed that Elsie Tyndall, librarian for the past six years, has resigned from the faculty.

Other resignations from the faculty, announced previously, are Mrs. Eleanor Etherton Stinnett, who was married this spring and will not teach; James Bynum, who has accepted a government position to teach in a foreign country, and Hal Killebrew, who said he would teach elsewhere.

Two new faculty members have been employed, Mr. Henson said. Mrs. Lucyella Foster of Harrisburg will teach Latin and Mrs. Robert Marquis of Paducah will be the new librarian. Mrs. Marquis' husband will teach in the Harrisburg city schools system.

## Graham Sermon Follows Search After Bomb Tip

NEW YORK (UP) — Billy Graham told 18,000 persons how they could keep their "appointments with God and be saved" Wednesday night. Only three hours before police had combed Madison Square Garden for what they feared was a bomb planted to explode during the sermon.

The audience was unaware that 25 policemen had searched the Garden for a possible bomb after a janitor found a note in the lobby that said in part "A lot of people will be killed."

Graham said that the woman at the well in Samaria (John 4:1) did not "just happen to be there and Christ did not just happen to pass through Samaria—He didn't have to go through Samaria because He was a Jew and the Jews and Samaritans hated one another. "He went to Samaria to save that woman. It's the same here tonight. You didn't have to come here but you had a divine appointment with God. Every time I stand here I know someone is here by God's appointment."

Following the North Carolina Baptist minister's plea to his listeners to keep their "appointments with God," 622 persons recorded "decisions for Christ," bringing Graham's New York Crusade total in 22 days to 12,684. More than 392,500 persons have attended his sermons.

#### Matter of Viewpoint

NEW YORK (UP) — Evangelist Billy Graham said Wednesday night that men are bigger gossips than women—but with a difference.

"When women talk a lot it's called gossip," Graham said. "But when men do the talking, they call it exchanging news."

# Carrier Mills Woman Is Killed In Auto, Truck Crash

## 16 Migratory Workers Killed In Truck Crash

### 26 Others Are Injured in North Carolina

FAYETTEVILLE, N. C. (UP) — A tractor-trailer truck loaded with potatoes smashed into a truck crowded with migrant workers at a busy highway intersection nine miles north of here today, killing 16 persons and injuring 26 others.

The injured were rushed to Highsmith and Cape Fear Valley hospitals here and to a hospital at nearby Dunn.

The highway patrol and Sheriff L. L. Guy both placed the dead at 13, but they were widely varied on the injured. The patrol said 25 were injured and the sheriff said 41.

The patrol said the wreck occurred at the intersection of U. S. 301 and N. C. 102, shortly before 7 a. m. The truck of migrant Negro workers was bound from Mount Olive, N. C., to Dunn for the workers to pick beans. Authorities said it apparently failed to halt at a stop sign at the intersection and was rammed in the side by the tractor-trailer, en route from Fayetteville to Dunn with a load of potatoes.

The truck with the migrants aboard overturned and burned. Reports said the driver and two persons in the cab of the truck were killed.

Volunteer firemen from the community of Vander rushed to the scene and doused the fire.

The migrant workers were reportedly from Georgia, Florida, Mississippi, Tennessee and Alabama.

Erskine McCullough of Florida, foreman of the Negro workers, said he was riding in a car ahead of the truck.

"I heard a crash and turned around and saw bodies all over the road," he said. He said he was uncertain about the number of workers on the truck, but said it was around 33.

All of the victims were Negroes. One was identified as a 6-month-old child.

The truck carrying the workers burst into flames after the spectacular collision and at least two of the victims burned to death.

## Fatal Accident by Airman In Greece Will Test Status Of Forces Agreement

ATHENS (UP) — A committee of the Greek Parliament meets today to discuss the jurisdiction of Greek courts over American troops stationed in Greece.

Under consideration is ratification of the Status of Forces agreement between the United States and Greece. Under the agreement the United States military reserves the right to try personnel for crimes committed while on duty. Greek civil courts will try American servicemen for offenses committed while off duty.

The Status of Forces agreement which is to be tested here shortly is the one under which a Japanese court was given jurisdiction over U. S. Army Specialist 3c William S. Girard, charged with manslaughter.

#### Airman Formally Charged

The parliamentary discussion took on an added note of urgency in view of the filing of formal charges against an airman in a highway accident.

Airman 3c Marion Mousalli, of Benwood, W. Va., was the driver of a U. S. Air Force car which fatally injured Gen. Stafnos Sarafis, a hero of the wartime anti-Nazi resistance movement, last May 31. The general's British-born wife was seriously injured.

A special magistrate Wednesday charged Mousalli with:

—Manslaughter by negligence.  
—Causing injuries by negligence.  
—Breaking traffic regulations.

Legal quarter said the fact that the Greco-American agreement was not ratified at the time of the accident may mean the Greek court would turn Mousalli over to the American military tribunal for trial.

The Air Force handed Mousalli over to Greek police promptly after the accident. Diplomatic observers said the action indicated U. S. authorities were anxious to avoid demonstrations similar to those which have taken place recently in Tokyo and Taipei.

## Hearings Next Monday

## Gov't Ordered to Show Cause Why GI Should Not Be Returned

WASHINGTON (UP) — A federal judge today directed U. S. authorities to show cause why an American soldier accused of slaying a Japanese woman should not be returned to the United States.

The soldier, Army Specialist 3C William S. Girard, Ottawa, Ill., is about to be turned over to the Japanese for trial there on charges of killing the Japanese woman while she was scavenging on an Army firing range.

Federal Judge Joseph C. McGarraghy directed U. S. authorities to show cause after Girard's attorneys petitioned him to order Girard's immediate return to the United States. The lawyers held that the shift to Japanese courts was illegal and unconstitutional.

McGarraghy said he could not do so without a "more complete record."

Accordingly, he ordered more hearings next Monday to determine whether Girard should be retained in the United States.

The action means U. S. authorities must show cause why an order for Girard's return should not be issued.

McGarraghy signed papers whereby Girard will be retained in U. S. custody until the habeas corpus issue is resolved.

The Japanese trial is now set for June 21. Girard's attorney, Earl J. Carroll of New York, argued that the soldier is being made "a sacrificial lamb merely for the purpose of appeasement."

Carroll said that, even granting that Japanese courts are as good as those in the United States, the case sets a precedent for all soldiers wherever they are sent. Carroll contends that the mishap took place in an area equivalent to a U. S. Army base where Japan has no jurisdiction.

On the other hand, U. S. Atty. Oliver Gasch argued that the area is not a military base but merely a section reserved for part-time use of U. S. troops. He said the Japanese army uses the same area at other times.

Girard's term of service expired last February. Apparently if he once got to this country he would be in civilian status and out of the jurisdiction not only of Japanese courts but of U. S. military authorities as well. The Supreme Court has ruled that ex-servicemen may not be returned to military custody to be tried for crimes committed while in uniform.

## Ledford Store Is Burglarized

Sheriff William T. Barrett and deputies Wednesday investigated the Tuesday night burglary of the Grant store at Ledford, where a quantity of merchandise was taken.

Thieves entered a rear window and unlocked a door to carry away the following: 12 cartons cigarettes, two boxes cigars, chewing gum, candy, chewing tobacco, matches, razor blades, shampoo, shoe polish, combs, card of milk of magnesia tablets, card of Stan-back packages, card of aspirin, several cans of brake fluid and potato chips.

## Mrs. Roy Shade Is Dead; Five Others Injured

### Accident Occurs At Intersection South of Herrin

Mrs. Roy Shade, 63, of Carrier Mills was fatally injured Wednesday in an auto-truck crash at the Routes 13-148 intersection five miles south of Herrin.

Mrs. Shade died at 3:45 p. m. Wednesday in Marion Memorial hospital as a result of the crash which injured five other persons.

Injured were Roy Shade, 64, husband of Mrs. Shade; Mrs. John L. Finn, 35, of Fairfield, Calif., daughter of Mrs. Shade and driver of the car in which they were riding; two other passengers of the auto, Mrs. Novella Barger, 40, of Harrisburg, and Miss Betty Dunfee, 27, of Pontiac, Mich.; and the truck driver, Frank Reeves, 55, of Cambria. All are in Marion Memorial hospital except Miss Dunfee, who was treated for minor injuries and released.

Hospital reports said the condition of Mrs. Finn is fair. She is suffering chest injuries. Also in fair condition are Mr. Shade, who suffered fractured ribs and Mrs. Barger, who sustained a back injury. Reeves suffered a possible dislocated shoulder.

Mrs. Shade's body was taken to the Thornton funeral home at Carrier Mills.

The Williamson county sheriff's office said that Reeves, a Williamson county highway department truck driver, was travelling east on Route 13 and that the car containing the others had been travelling south on Route 148.

Reeves told the officers that the auto stopped at the stop sign, then pulled out onto Route 13 into the path of his truck. He said he swerved but could not avoid a crash.

Mrs. Shade, known to many as Lettie Murphy Shade, leaves her husband, Roy, the daughter, Mrs. Finn, and two sons, Wilson Murphy and Doug Murphy, both of Carrier Mills.

The funeral will be at the Social Brethren church on Route 45 at Carrier Mills and the church pastor, the Rev. Elmer Grisham, will conduct the funeral service. Time of the funeral was undecided.

Palbearers will be Carl Hutson, Lewis Jackson, Raymond Davidson, Pete Dunfee, Mark Walker, and Cecil Chase. Flower bearers will be members of her Sunday school class at the Social Brethren church.

The body lies in state at the Thornton funeral home.

## Boy Suffocates In Ice Box

ORLANDO, Fla. (UP) — Police plan no charges against the owner of an ice box in which a 10-year-old boy, hiding from his mother, suffocated Tuesday, authorities said Wednesday.

Detectives said that Arthur B. Murphy violated no law by not having an inside catch on the ice box, because it was stored in a building—not in the open.

The boy, Vance Lafayette Satterthwaite, son of Mrs. Sarah L. Satterthwaite, crawled into the ice box stored in a garage after his mother had punished him.

## Introduce Legislation To Fight Mosquito Problem in Saline County

State Rep. Gordon Kerr of Brookport today announced he had introduced emergency legislation in the Illinois House of Representatives to fight the mosquito problem in Saline County.

Rep. Kerr said the bill is co-sponsored by Rep. C. L. McCormick of Vienna and that Senator Glen O. Jones of Raleigh will sponsor the bill in the Senate.

The bill asks for a \$10,000 appropriation to the Health department for this work.

Rep. Kerr said it must have a two-thirds majority and would become law as soon as the governor signs it.

## Lindy Started Something

Editorial — BY BRUCE BLOSSAT  
It was fitting that a modern jet pilot should span the Atlantic on the 30th anniversary of Charles Lindbergh's famous flight to dramatize the progress of transoceanic flying in three decades.

In 1927 the sloop-like Lindbergh, flying an overloaded, single-engine monoplane, made his way across the Atlantic nonstop in 33 1/2 hours, guided only by a compass, air speed and altitude gauges and rough calculations of wind drift.

Piloting an F-100F Super Sabre jet fighter, Maj. Robinson Risner of Tulsa, Okla., shot across the ocean to Paris in 6 hours and 38 minutes, including refueling time. And, going by way of the Azores, his route was slightly longer than Lindy's. He rode in a cockpit jammed with electronic devices that figured his position automatically at all times and kept him in contact with available stations.

There seem to be no official records for jet crossings of the Atlantic. But a striking commentary on the present state of oceanic flying is the fact that a Pan American DC-7C, a piston-engine aircraft, last January flew from New York to Paris on a scheduled trip in 8 hours, 50 minutes.

The jet which observed Lindbergh's anniversary costs \$640,000 and is driven by a thrust equal to more than 10,000 horsepower at the speed and altitude flown on this particular flight.

The original Lindbergh plane, the Spirit of St. Louis, cost just \$25,000 and its lone engine developed 220 horsepower. Lindy's total gas load, huge for the times, was 450 gallons. The F-100F carries 1,500 gallons of fuel, devouring 450 in some 40 minutes.

What the jet did, of course, was no stunt. In two years commercial jet transports will begin regular transatlantic flights on west to east schedules of six to seven hours nonstop to London and Paris. No doubt of it, Lindbergh really started something when he set that tin crate of his down amid thousands of howling Frenchmen at Le Bourget field 30 years ago.

## 634 Tornadoes In Five Months

WASHINGTON (AP)—The Weather Bureau said today a record 634 tornadoes were reported in the United States during the first five months of 1957.

More than 100 lives were lost in the storms.

The bureau emphasized that the sharp increase in the number of tornadoes reported is due chiefly to expansion of its storm reporting network and does not necessarily reflect an increase in the number of storms.

Three or four light applications of paint on buildings is better than one thick coat.

## 'Be Kind to Animals, I Always Say'

## The Washington Merry-Go-Round

By DREW PEARSON

DREW PEARSON Says: Senators Can't See Ike, Though Dave Beck Did; Installment Buying Makes Capitalists Out Of Yugoslav Communists; Congressman Who Once Opposed Tito Changes His Tune.

WASHINGTON. — One reason Ike is having trouble with his budget is that senators and congressmen seldom get in to see him.

They can't even get him to answer letters. Every congressman who wrote a letter to Roosevelt or Truman always received a personal reply. Almost all who requested appointments with Truman got in to see him. He made it a point to see every congressman except Adam Clayton Powell of Harlem, cDemocrat, and Mrs. Clare Boothe Luce, Republican of Connecticut. Both had once criticized Mrs. Truman.

Not every Congressman got in to see Roosevelt during the war years, but they did prior to the war.

One month ago eight southern senators asked to see Eisenhower regarding what they considered EAB discrimination against Eastern Airlines. They received a reply from Gen. Wilton Persons, Ike's deputy assistant, as to why they couldn't get an appointment. Six weeks ago, seven senators asked to see Ike regarding Hell's Canyon. They are: Murray and Mansfield of Montana; Magnuson and Jackson of Washington; Morse and Neuberger of Oregon; Church of Idaho.

After waiting a month, White House aide Jack Anderson wrote a long, involved letter explaining why Ike couldn't see them.

Observed Senator Neuberger: "The President was willing to take time for conferences with Dave Beck last fall, but he hasn't time to confer with seven senators representing a part of the nation with the greatest natural resources."

### MERRY-GO-ROUND

Two famous neighbors are feuding over guided missiles. They are Gen. Nathan Twining, new chairman of the Joint Chiefs, and Gen. James Gavin, the Army's missile expert. They are so sore at each other that they will rarely speak. Ironically, they live next door to each other at Fort Myer, Virginia, and Gavin's little girls frequently call on Mrs. Twining. Gen. Tommy White, new chief of staff of the Air Force, has been trying for six months to get a light bulb for a closet at his Fort Myer home. However, the Army owns and operates Fort Myer, so General White of the Air Force has to get the new light bulb from the Army. Apparently the Army figures it can save on the Army budget by keeping Air Force closets in the dark. Secretary Dulles was so worried about the 19-million-dollar slash in the State Department's budget for salaries and expenses that he personally telephoned Ap-

propriations Subcommittee Chairman John Rooney of Brooklyn at 8 a. m. Rooney was so impressed with Dulles' spirit in fighting for his budget that he agreed to restore five million dollars of the slashed funds. Secretary Dulles has been vacationing at his private island in Lake Ontario. The sessions with Adenauer nearly exhausted him. He tires much more easily after diplomatic conferences, since his illness. Scientists are perfecting a new anti-radar fluid that can be spread on the surface of the ocean. It will then bounce radar rays back and will be used to confuse enemy reconnaissance planes.

### CONGRESSMAN VS. TITO

Installment-plan buying of American-style electrical gadgets is changing the Yugoslavs from Communists to capitalists, says Pittsburgh's GOP Congressman James G. Fulton, heretofore bitter foe of U. S. policy toward Marshal Tito of Yugoslavia. He has just returned from Tito-land.

Fulton discovered that the anti-Communist revolt in Hungary had produced "explosive" results in Yugoslavia.

"It had similar effects in all the satellites, but particularly in Yugoslavia. The average Yugoslav today is scared to death of the Russians."

To Fulton, this means Yugoslavia can never fall back under Soviet control. Hence for the first time he is supporting economic aid to Tito—plus defensive military aid.

"The stores are full of radios, refrigerators, stoves, and automobiles," reported Fulton. "All you want. The wife says to her husband, 'pay the next installment,' and the husband listens. As a result, the Yugoslav people won't do the economic things their Communist leaders want them to."

"The leaders are losing support—being forced to do what they don't want to do."

"People are still in jail. But there's religious freedom now. There's a law against interfering with a church service. I didn't believe that until I went to a church in Osijek, near the Hungarian border. I said to myself, 'if I can participate, though no one knows me here, anyone can come in.' Not only did I participate, I even rang the church bell!"

Fulton was amazed by the extent of U. S. influence. "The May Day parade had a real American look," he declared. "American tanks, American equipment. There's tremendous American influence, so much that Yugoslav officials are complaining."

"But among the people, Americans are the most popular of all nationalities."

Note—because of his past anti-Tito history, Fulton was denied an official visa, instead had to enter as an ordinary tourist. His appearance caused a stir in Belgrade. Said one official: "We're surprised to see you, of all people. You aren't exactly popular in our government circles, you know."

### HEADLINES & FOOTNOTES

UN Secretary General Dag Hammarskjöld is trying to persuade Egypt to build a barbed-wire fence between that country and Israel. Israel is willing to fence off the border, but the Egyptians are against it. They claim the Jews are encroachers and won't agree to any kind of permanent boundary line. This makes it very difficult to stop raids across the border. . . . Dominican

diplomats have been contacting Dominican citizens in this country and ordering them to sign a petition praising Dictator Trujillo. Those who refuse are threatened with retaliation against their families. . . . The signatures are to be used in a publicity campaign to combat the mysterious murders of Prof. Jesus De Galindez of Columbia University and Pilot Gerald Murphy, who flew Galindez' body out of New York.

## Four to Attend Practical Nurse Meeting in Chicago

Four students enrolled in the Harrisburg School for Practical Nurses will attend the three-day session of the Licensed Practical Nurses Association of Illinois to be held in Chicago Friday, Saturday and Sunday, June 7, 8 and 9.

Planning to attend LPNAI from the local school are Mrs. Ruby Carahan and Mrs. Lorene Reeves of Harrisburg, Mrs. Sarah Prather of Carrier Mills and Mrs. Essie Adams of Galatia.

Interviews for prospective students for the second class for the Harrisburg School for Practical Nurses will be held as follows: Thursday, June 6, 1 to 4 p. m.; Friday, June 7, 9 to 11 a. m. and 1 to 4 p. m.; Saturday, June 8, 10 to 11 a. m. and 1 to 4 p. m. Interviews will be held at the Harrisburg Township High School office.

It was pointed out today that due to the limited number of students that could be accepted for the first class, several applicants could not be accepted. If any of those women are still interested in the school, they are invited to come for another interview, it has been announced by Mrs. Shirley Oshel, R. N., coordinator of nurses for the school.

## Kroger Teams Up With Trucking Safety Campaign

The Carbondale Division of the Kroger Co. has signed up to "Team Up For Highway Safety" in support of the summer safety campaign being conducted all over the country by the trucking industry. The trucking industry's campaign is being conducted by the ATA Council of Safety Supervisors and is being run in conjunction with the "Slow Down and Live Campaign" of the National Conference of State Safety Coordinators in an all-out effort to hold down the summer-vacation-time rise in traffic accidents.

"We feel that there is no more tragic end to a vacation than an accident, whether on the highway or in the course of some related activity," said Vice President W. L. Engle in announcing the safety campaign. "We urge all drivers to use care and common sense when traveling and when they get to their destination. The trucking industry, through its professional drivers, will do everything in its power to see that they get there safely."

"We are proud that our employees have pledged to:

1. Drive defensively.
2. Yield the right-of-way whenever necessary to avoid an accident.
3. Observe all traffic regulations.
4. Be courteous to other highway users.
5. Be alert in residential areas.
6. Drive at a safe speed for the existing conditions.
7. Let faster traffic pass.
8. Maintain a safe following distance behind other vehicles.
9. Drive a safe vehicle.
10. Keep in good physical condition for safe, alert driving.

"Drive safe and play safely this summer. Team Up For Highway Safety. Slow Down and Live." Mr. Engle concluded.

## Raleigh Register

Rev. C. E. Russell, pastor of the Muddy Baptist church, was guest speaker at the First Baptist church, Sunday.

The Raleigh Union of the WCTU met in the home of Mrs. Winnie Newcomb, recently, for its May meeting. Mrs. Newcomb served refreshments of strawberries, cookies and ice tea to her guests.

The Raleigh grade school classes, 5, 6, 7 and 8, went to the Dixon Spring, state park on the closing day of school. They were accompanied by their teachers.

Mr. and Mrs. Clifford Farmer and family of Crawfordsville, Ind., were guests in the home of Mrs. Winnie Newcomb, recently.

Opal and Darlene Goodson visited Mr. and Mrs. George Reynolds in the Reynolds grocery near Golconda Friday.

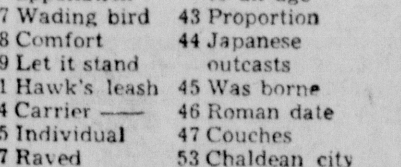

Mr. and Mrs. James Williams had the following week end guests: Mr. and Mrs. Ted Wellman and family of Pontiac, Mich., Mr. and Mrs. Gladys Gibbs of Harrisburg, Mrs. Goldman and son of Eldorado and Gary Elder of Joliet.

The Future Homemakers 4-H club met in the home of Mrs. Lowell Tison recently. Mrs. Kay Harrison, president, called the meeting to order for the business meeting. The group voted to pay 10 cents dues to be used for a picnic.

Brenda Rhine demonstrated "What Kind of Cloth to Use" and Donna Downey demonstrated "How to Thread a Needle and Tie a Knot." Janet Gholson and Ellen Kay Harrelson were accepted for membership. The next meeting will be at 1:30 p. m. June 17 in the home of Mrs. Lowell Tison.

The Santa Fe Trail ran from Independence, Missouri, to Santa Fe, New Mexico, a distance of 780 miles.

## Flood Insurance In Reality Soon, U.S. Official Says

U. S. Commissioner F. J. Meitrell of the Federal Flood Indemnity Administration states that as soon as the necessary funds are appropriated by Congress which is expected to be soon, his administration will be ready to put "Flood" policies on the market.

Flood losses are increasing yearly, despite a rapid extension of flood protective works. People and their properties should consider seriously the "flooding" hazard if the appalling losses caused by water are to be avoided.

The increase of damage by floods and rising waters is not the result of more frequent flooding; rather of the steady encroachment due to the rapid expansion of homes and business near natural flood ways of rivers and coastal valleys.

The Federal Flood Insurance Act prohibits issuance of flood insurance in any geographical areas unless a public body shall adopt and keep in effect flood zoning restrictions, so as to reduce damage in such locations.

At this time outside of several type policies covering household goods from flood, there is no coverage available against damage by flood or rising waters against commercial stock or buildings. The average fire and extended coverage policy, unless by special endorsement, offers no protection against this hazard to personal property.

Floods and rising waters (back water too) especially in this area—the Ohio, Mississippi River Valley—has done thousands and thousands of dollars damage to business places. The Federal Flood Insurance provision is badly needed in this area.

## NOTICE TO THE THIRSTY

In Brown's Army store ad in the classified Wednesday, water jugs were offered for \$4.49, which was \$2 more than the asking price. Brownie's said he would even fill 'em up for \$2.49.

There are more than 40,000 Christians in Israel, served by about 1,000 religious functionaries.

Teen Town senior board and all delegates and alternates will meet at 7:30 p. m. tonight at Teen Town. This is a very important meeting, all members please attend. Louis Murphy, president, senior board.

### Births

#### At Harrisburg Hospital

To Mr. and Mrs. Ferrell Tedford of 700 West Elm street, Harrisburg, a girl named Mary Ann, born today, weighing seven pounds, 2 1/4 ounces. The mother of the child is the former Miss Anna Griffith.

To Mr. and Mrs. Loyd Nicholson of Carrier Mills, a boy named Timothy Loyd, born Wednesday and weighing nine pounds, six ounces at birth.

To Mr. and Mrs. W. M. Johns of Vienna, a girl named Cynthia June, born Wednesday and weighing eight pounds, eight ounces.

To Mr. and Mrs. Darrel Wayne Mattingly of RFD 3, Harrisburg, a boy named Gary Wayne, born Wednesday and weighing five pounds and 12 ounces. The mother of the child is the former Miss Marilyn Gwaltney.

To Mr. and Mrs. Howard Bowman of RFD 1, Carrier Mills, a girl named Bonita Suzette, born today and weighing eight pounds, two ounces.

**DR. NOEL M. TAYLOR**, Executive Secretary of the Illinois Baptist State Association, who has been elected second vice-president of the Southern Baptist Convention. He is the first Illinoisan ever elected as an officer of the Southern Baptist Convention. Under his 11-year leadership Southern Baptists in Illinois have established 236 new churches since 1946. Membership in Southern Baptist churches in Illinois has increased by approximately 50,000 in the same period.

### Reset Deputy Salaries of Two In Gallatin County

The Gallatin County Board of Supervisors meeting in adjourned session Tuesday voted to increase the salary of the deputy sheriff \$50 per month. They also voted to set the salary of the sheriff's office deputy at \$50 per month. A move to restore the previous \$100 per month salary of this office resulted in a 5-5 tie vote.

The supervisors agreed to pay the bills approved by the finance committee, and allowed the bills of the various townships for election expense.

It was agreed that the county Ford car be advertised for sale at the front steps of the courthouse to the highest and best bidder.

The supervisors will meet in regular session on Monday, June 10.

### Foreign Teachers Say Pupils Need More Rest

HARRISBURG, Pa. — The American elementary school child is putting in too many academic hours during a day, according to six foreign elementary school teachers who recently spent some time observing teaching methods and study programs in various Pennsylvania schools.

The visitors, representing Cambodia, Guatemala, Finland, Mexico, Egypt and Germany, said they thought the American public schools system went far beyond the three R's in the elementary program and gave important emphasis to good citizenship.

The average American child was praised as "friendly, well-informed and very eager to learn." But the teachers said he should have more rest periods.

### Spending by Americans to Hit \$277 Billion

NEW YORK — Americans are going to shell out more than a quarter of a trillion dollars this year for goods and services.

This record 277 billion dollars will go for everything — automobiles, houses, clothes, ice cream sodas, haircuts, vacations and even a few bets on the ponies. It averages about \$1,600 for every man, woman and child in the United States.

It will be about 10 billion dollars more than we spent last year. It will help keep the wheel of industry humming along at a prosperous clip.

Increased government and business spending will add fuel to the rise which is expected to carry the gross national product — the value of all goods and services produced — to a new peak of 435 billion dollars this year.

**Consumers Most Important**  
Consumer spending is the most important cog in the wheel — six times the amount to be spent on industrial expansion and three times the outlay by government.

In most cases, the consumer appears to be better off financially than ever before. Disposable income is at a record high. Savings and employment are near their best levels. The economic outlook, on the cloudy side a few months

**PROUD OF POP**—Albert G. Smith's wife and nine children point with pride to "Pop" who will graduate this month from Fresno (Calif.) State College, capping an 11-year off-and-on collegiate career. Smith doggedly pursued an education to "set an example for our children."

ago, has brightened considerably and many experts look for better business in the months ahead.

All these factors, economists predict, will combine to keep consumers in a buying mood.

#### More Expansion Seen

Industry is expected to spend some 37 billion dollars for expansion, a gain of 2 billion dollars over 1956. Federal, state and local governments will shell out around 106 billion dollars, up more than 6 billion dollars from last year.

The picture is not all rosy, however. The economy this year has

been going through a rolling adjustment — some industries declining and some advancing. The over-all result has been a general leveling off in the economy.

Inflation is another bugaboo. Economists figure that at least half the gains in spending this year will be the result of higher prices. The other half will reflect increases in unit volume.

Living costs in the United States have hit new all-time highs in each of the past eight months, and recent wage and price increases leave little hope of an early reversal.

### Gov. Stratton Vetoes Pay Increase of State Racing Board Secretary

SPRINGFIELD — Gov. William G. Stratton today vetoed a bill to increase the salary of the secretary of state racing board from \$7,500 a year to \$10,000.

The governor said the pay increase was "not in conformity" with pay scales recommended by the new Department of Personnel.

The governor signed into law a bill to create a special legislative study commission to investigate the public aid program in Illinois and report to the next legislature.

## The Rare Adventure

by BERNARD FERGUSON

XXXIII

De la Meziere came out to them, and with a polite apology to Mollie asked if Allan could spare him a quarter of an hour in the office.

Brisbarre, unshaven but gay, was also in the office. He had scarcely exchanged a word with Allan since his return, having been tactful enough not to intrude on his privacy with Mollie.

"Take a chair, Colonel," said de la Meziere. "We have heard from Nail that all is quiet there again, so that if I should want them I could get more troops. But, thanks to your intervention, that should not be necessary now. I have asked Father Paleologue to come ashore, so that I can have the benefit of his advice also. But the important thing is what to do next. We must get hold of this disagreeable old lady at Clusium and her other son, before they can do harm."

Allan had already made up his mind that the revolt was over, and he had not considered that any further military operation might be needed.

"I don't think the old lady or Camille Fernana can do any harm now," he said. "Apart from a few guards at Clusium, I gathered that the whole Seknougais army, if you can call it such, was what we saw this morning. All the notables except Camille Fernana and Kassim Mourali were present when they made their peace with you and me this morning. Neither the old lady nor Kassim nor Camille have any following left."

"I'm glad to hear it," said de la Meziere. "Ah, here is Pere Paleologue! Come and sit down, and join our discussion."

After a rapturous reunion with Brisbarre, Paleologue joined them, his bony knuckles on the table in front of him.

"The revolt is over, I agree," said de la Meziere; "but we must still put our hands on the dissidents, who have not made their peace."

"The real instigator of all the trouble is dead," said Allan dryly.

"You are suggesting that I should leave her eldest son and her at large, are you?" asked de la Meziere.

"If Jules and Georges and all their friends are going to play fair, it doesn't matter a hoot what the other two do. The best thing of all, in fact, would be if they were quietly allowed to disappear, anywhere, so long as they didn't stay here. When the Seknougais see how well the new setup is going, with the French resident and the Fernana dynasty recognized by Tunis as a recognized ruling native sultanate under French protection and advice, the old lady and Camille are busted flushes."

De la Meziere lit a cigaret thoughtfully, and puffed at it.

"You need not be afraid that I have forgotten our bargain of this morning," he said. "I will keep my side of it, you may be sure. I am thinking, as I say, of the reactions in Tunis. When I passed through La Gourlette last night I

was quite clear in my mind that I had a free hand. Today the situation throughout the whole country is much better, and already I have had a message clipping away at the free hand which they gave me. I have been told to make examples of those who have not made their peace."

"If I can say one more thing," began Allan. "You and I have both seen some odd things done by our administrations in the Levant. And elsewhere. We have seen them showing clemency at the wrong times. When it was bound to be considered a sign of weakness. We have also seen strictness shown at just the wrong times—just at the precise moment when a spot of clemency was what was wanted. The man on the spot knows best which is wanted, and you're the man on the spot. What would you say, at this moment, in this situation?"

There was a pause. Allan was fidgeting in his chair. De la Meziere's difficulties were only too obvious, but Allan was sure that his heart was in the right place. They had known each other casually before the war; but it was during the fighting in Syria that they had come to appreciate each other's worth. They had spent 36 hours scrambling in June over a shoulder of Mount Hermon where the snow still lay, accompanied by half a dozen picked men from three different races, in an attempt to snipe and harass the main road from Damascus to Beirut. While they were thus engaged, the Armistice had been signed; and their adventure had ended tamely in a peaceful drive along the main road and down the Barada Gorge into Damascus and the celebrations in the Officers' Club. They had never seen each other again until that very morning; but each had preserved of the other a warm memory.

"Well, mon vieux?" said de la Meziere. "What do you suggest this time? Another long crawl over a mountain with a Bren gun?"

"I'll tell you exactly: to take

### Introduces Bill Asking Amendment to Outlaw Federal Income Tax

your eye off me for three or four hours. Nothing more. The Seknougais notables are over the road, in the hotel; they sent me a message half an hour ago inviting my wife and me to join them. You are busy in this office, writing a report or something. I leave. I am back by 4 o'clock or by sunset at the latest. You haven't the slightest idea where I am. I'm having a spot of sleep. I've earned it. Anyway, I'm not in your office, and you don't precisely know where I am."

(To Be Continued)

**Have You?**  
FORT MADISON, Iowa.—New prisoners at the State Penitentiary are given classification tests which include the question: "Have you ever felt urged to commit a crime?"

SPRINGFIELD.—State Sen. Lottie Holman O'Neill today introduced a resolution asking Congress to propose a constitutional amendment outlawing the federal income tax.

The resolution urged Congress to submit to the states for ratification an amendment that would repeal the 16th Amendment, which permitted the income tax.

She suggested that the new amendment should read "Congress shall not have power to lay or collect taxes on income derived from any source."

Mrs. O'Neill's resolution was sent to a committee.

## The Oracles of God

I PET. 4:11

### CHURCH OF CHRIST

215 S. Granger

Charles Wall, Minister

#### HOW MAY I ENTER THE CHURCH?

In 2 Tim. 2:10, The apostle Paul said, "Therefore, endure I all things for the elect's sake, that they also may obtain the salvation which is in Christ." Of course we understand that while salvation is "in Christ" it is not in His fleshly body. Then where can it be found? It is in the Spiritual body of Christ. Just exactly what is His spiritual body? The answer is found in Col. 1:18: "And He is the head of the body, the Church," thus, to say salvation is in Christ is equal to saying that it is in the Church of Christ. The question is, "how may I ENTER Christ?"

The first thing one must do is to believe that Jesus Christ is the son of God. (Jno. 20:30-31). We must then repent of our sins and be baptized in order that they may be remitted. (Acts 2:38) These simple steps puts us into Christ, and, therefore, into the Church, is made known by (Gal. 3:26-27). "For ye are all the sons of God, through faith in Christ Jesus. For as many as were baptized INTO Christ did put on Christ." Are you a member of the Church of our Lord?

## (1) Notices

In the Circuit Court of Saline County, Illinois.  
Lauderdale Oil Production and Exploration, Inc., a corporation, Plaintiff, vs. Louis Thomas, Wilson Rogers, Jacqueline Rogers, and the Sohio Petroleum Company, a corporation, Defendants.  
In Chancery No. 57-C-209.

**NOTICE**  
The requisite affidavit having been filed in my office, notice is hereby given you, Wilson Rogers and Jacqueline Rogers, that the above named plaintiff has heretofore filed his complaint in said cause in said court, in chancery, claiming a lien and equitable relief against your interest in the following described premises:

The West 1/2 of the Southwest 1/4 of the Northwest 1/4 of Section 28, Township 8 South, Range 3 East of the 3rd P. M., Saline County, Illinois, containing 20 acres, more or less.  
That you and each of you are hereby notified that unless you make your appearance in said cause on or before the 15 day of July, 1957, the return date, a default may be entered against you.

Dated this 5th day of June, 1957.  
JAMES R. BURROUGHS,  
Circuit Clerk & Recorder  
Saline County, Harrisburg,  
Ill.

KERN & PEARCE  
Attorneys for Plaintiff,  
"Armi, Illinois. 288-

## Card of Thanks

REYNOLDS — In the midst of our sorrow, we wish to express our heartfelt thanks and appreciation to our many relatives, friends and neighbors for their kindness and sympathy shown us in the loss of a beloved wife and mother, Mrs. Eunice Reynolds. We especially wish to thank the Rev. Floyd Jent, and the Rev. Wm. Fuson, for their consoling words; Dr. Frank P. Skaggs and the nurses at Harrisburg hospital. Also all the donors of the many beautiful floral offerings, the pallbearers, the singers and the Turner funeral home for their kind, efficient management of the services.  
Mrs. Leota Reynolds and family. 288-1

**Benson Warns**  
**Turkey Growers to**  
**Curtail Production**

**WASHINGTON (AP)—Secretary of** Agriculture Ezra Taft Benson today warned turkey growers to stop depending on the government to bail them out of low-price markets.

He told them to curtail sharply the hatch of turkey poults to avoid production of a crop in excess of consumer demand at reasonable prices to producers.

"The turkey industry cannot count on government buying in every year as a part of its market outlet," Benson said. "Instead, all operators in the industry—breeders, hatchermen, and turkey growers—should make every effort to avoid over-production for better returns in the open market."

"This could be done by sharply reducing the setting of turkey eggs in early June," Benson said.

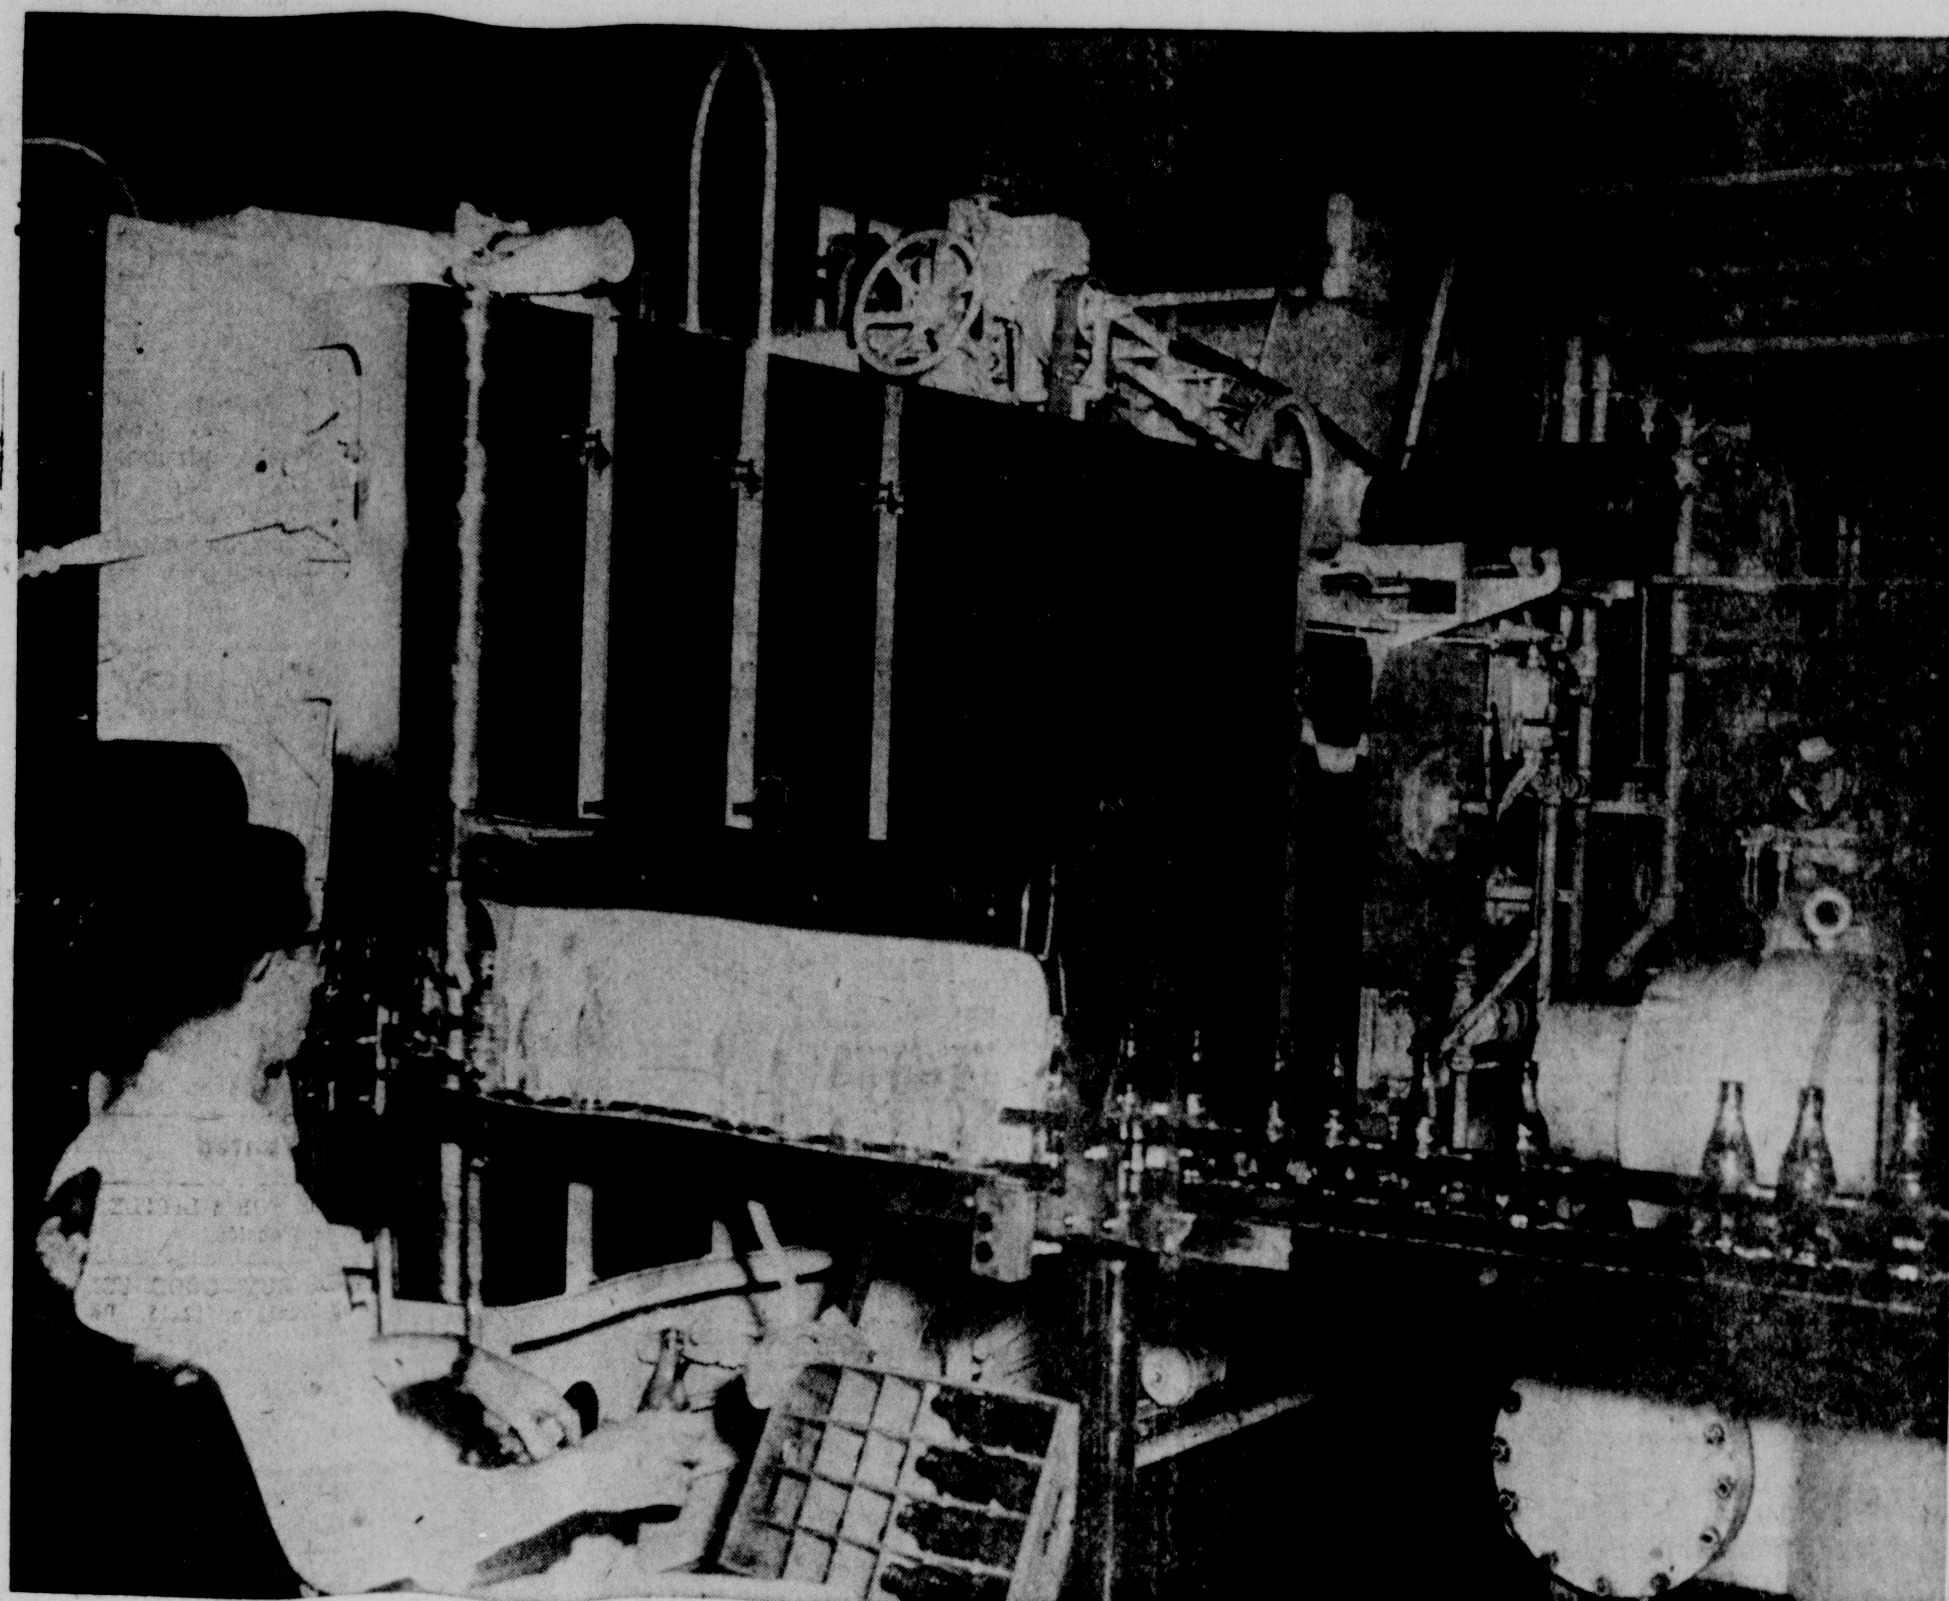

The turkey hatch through April was up 8 per cent, and eggs in incubators on May 1 indicate the May hatch will be up about 3 per cent. Benson said the hatch during the first five months of 1957 probably will be up about 3,600,000 birds more than during the same period last year.

The department bought about 26 million pounds of surplus ready-to-cook turkeys in 1956 in an attempt to bolster market prices for live birds. The turkeys were used in the school lunch program.

# COCA - COLA IN TWO SIZES IS NOW IN PRODUCTION AT HARRISBURG PLANT

**THE HUGE NEW MEYER DUMORE WASHER** recently installed at the Coca-Cola Bottling Company of Harrisburg is shown above as production manager Richard Webb checks the empties coming from the machine.

The new washer will handle any size bottle from the standard 6-ounce size to a full quart bottle, washing, steaming, and sterilizing the bottles to the highest degree of cleanliness. From the washer the

bottles move on a continuous belt to the bottler, untouched by human hands during the entire process.

(Register Staff Photo)

**TOM AND FRANK WOLF** inspect two of the first king-size bottles of Coke to come from the new equipment. Distribution of the new size is now complete in all of the plant's territory in Saline and Gallatin counties, and first reaction indicates a very pleasing reaction to the choice of sizes now being offered.

(Register Staff Photo)

## Plant Has Grown Since Wolfs Began Operations Here in '53

The formal opening of the greatly-enlarged, remodeled and modernized Coca-Cola Bottling Co. plant in Harrisburg was held April 15, 1953, with the affair in charge of Ray A. Wolf of Mt. Carmel, assisted by his two sons, Tom J. Wolf and Frank J. Wolf.

The three are in partnership in owning the Harrisburg plant.

After the Wolfs took over, an 80 by 90 foot addition was installed at the rear to give the bottling company 20,200 feet of floor space.

Since that time operations have grown with the company bottling Wolf's beverages and other soft drinks.

### Outline of State on Bottles

The Wolf's beverages bottles are unique in that each has an outline of the state of Illinois on it with "Harrisburg, Illinois" plainly marked on the outline, with the legend, "Made in Little Egypt." Besides the three partners, other employees are:

Virgil Ferrell, route supervisor; Rich Webb, production manager; James Conrad, cooler maintenance; Paul Rice, William Ferrell, Jr. and Bob Wilson, production force; Ray Sisk, Dick Romonosky, Jim Oliver and Paul Emery, route salesmen; Virginia Stanley, office manager; and Mildred Banks, full bottle inspector.

The operations of the plant, as well as the operations of any Coca-Cola Bottling Co., are governed strictly by the Coca-Cola Co. of Atlanta, Ga., because Coca-Cola intends that every plant distribute the finest product.

### Check on Plants

A constant check is kept on the local plant, with representatives coming here to inspect plant appearance as well as drink quality, sanitation and sanitization. A plant must adhere definitely to the bottling formula set forth by the company.

If a bottler doesn't comply with

the strict standards, it means the Coca-Cola franchise will be taken away from him.

In addition to sending in representatives for inspections, a traveling laboratory is sent into a plant once or twice a year to check quality and sanitization.

## New King-Size Bottles Getting Great Response

The Coca-Cola Co. of Harrisburg is trucking out the new king-sized bottle of Coca-Cola along with the standard size into its territory of nearby towns, one resort, and intermediate territory.

Coca-Cola trucks are taking the popular beverage to dealers at Equality, Shawneetown, Omaha, New Haven, Norris City and Pounds Hollow, as well as throughout Saline county.

Route supervisor is Virgil Ferrell and route salesmen are Ray Sisk, Dick Romonosky, Jim Oliver and Paul Emery.

Reports are that the big bottle is getting a great response from the public.

The Daily Register, Harrisburg, Illinois  
Thursday, June 6, 1957 Page Seven

## Modern Plant Far Cry from 'Pop Factory' Began by Wolf in 1886

The modern offices and sparkling clean machinery of the local Coca-Cola bottling plant are a far cry from the little "pop factory" started by Frank J. Wolf on the banks of the Wabash river at Mt. Carmel, Ill., in 1886.

The elder Wolf, father of Ray A. Wolf, who with his sons, Frank J. and Tom J. Wolf, operates the Coca-Cola plant today, had quite a diversified operation in his "pop factory." The pop business was strictly seasonal then, and to keep the factory operating during the light winter months, Mr. Wolf and his employees would cut ice from the frozen Wabash and store it in sawdust houses.

This was the only source of ice in the area during the summer months, and he peddled it to the restaurants and soft drink establishments. He continued this dual operation until 1906, when the state passed the pure food law forbidding the sale of ice unless it was manufactured with distilled water. This act marked the beginning of sterilization and sanitation of ice plants and bottling plants in Illinois. It also marked the end of Mr. Wolf's ice plant, and he concentrated his efforts on the manufacturing of pop.

### Obtains Coke Franchise

In 1907 he obtained a franchise from a fast-growing concern called Coca-Cola, and commenced bottling operations at Mt. Carmel. In 1908, Coke sales began a steady increase, and since the territories in Saline, Gallatin, and White counties were still open, Mr. Wolf applied for and received franchises for those territories also, adding them on to the franchise at Mt. Carmel.

Along about this time Ray Wolf began to be active in business. He remembers shipping Coca-Cola and pop to several good customers in Harrisburg, Carrier Mills, Stonefort, Eldorado, Equality, Shawneetown, Ridgway, New Haven, Omaha and Norris City. Let him tell a bit of the story:

"I expressly remember when we would ship Coca-Cola and our so-called 'pop' to Mr. Charles V. Parker in carload lots. We also had a distributor here who still happens to be one of our residents in Harrisburg, Mr. A. Franks."

The Wolfs continued to ship their products to local distributors until 1921, when they sublet the Harrisburg territory to Cathcart

Bros., who had a small bottling plant here at that time. They operated the local Coca-Cola plant until March, 1923, when it was sublet to Charles and Harry Dorris, and the Dorris family continued to be the local Coca-Cola bottlers until March 1, 1949. In May of that year, bottling operations were discontinued while remodeling and new construction plans were formulated and put to work. The bottling of Coca-Cola for local distribution was done at Mt. Carmel and Marion until February 6 of 1953, when operations were once again resumed at the present location.

Of course, the bottles have to be put in cases. The case packer put 24 bottles in each case. From there they go to the stock room to be placed in trucks for delivery to your retail outlet.

And That's Not All

Of course, there are steps that

## Cool Bottle of Coke Result of Careful Process

### Most Modern Machinery, Testing Apparatus Used

That bottle of Coca-Cola you're about to drink. Did you ever stop to think how it happened? Did you ever stop to think the process taken by your Harrisburg Coca-Cola plant before the bottle reaches you, ice cold, tasty and refreshing?

It's not a short process. Every care is taken to see that you get a first class drink. The most modern equipment, including machinery and testing apparatus are used.

Let us take the empty Coke bottle, and fill it at the local Coca-Cola plant. But you didn't realize so much was involved.

### A Lot of Machinery

Step one, of course, is to wash the bottle, and you just don't dunk it down in a tap of water and rinse it out. Biggest piece of machinery in the bottling room is the bottle washer.

Here the bottles are thoroughly washed and sterilized in four separate hot caustic solutions for 25 minutes. After being scrubbed with brushes, inside and out, the bottles are then rinsed with continuous jets of water. Each bottle is inspected before it is ready for filling with Coke.

A special heater heats the caustic solution used in the washer and circulates it at a constant temperature.

The filler-crowner operation is next. The filler automatically fills 120 bottles every minute with the proper amount of Coca-Cola, the crowner automatically seals all the quality and goodness with a clean, air-tight bottle cap.

### Other Processes Necessary

But for a bottle to be filled, there are other steps that had to be made. Let's look at the Carbo-Cooler, then the Synchronometer.

The Carbo-Cooler is a completely sealed stainless steel unit where the syrup and treated water are brought together for the first time. The mix is refrigerated and saturated with carbon dioxide gas under carefully controlled conditions of temperature and pressure. This assures the exact degree of carbonation or "fizz" which sets the Coca-Cola apart.

The Synchronometers automatically proportion the amounts of syrup and water going to the Carbo-Cooler, maintaining an accuracy of 1/50 of an ounce. This machine makes certain each bottle will taste the same because each has the same ration of syrup to water.

The next step is the finished product inspection.

Of course, the bottles have to be put in cases. The case packer put 24 bottles in each case. From there they go to the stock room to be placed in trucks for delivery to your retail outlet.

And That's Not All

Of course, there are steps that

## Huge New Equipment Is Installed to Handle Large 'King Size' Bottles

Big bottles of Coca-Cola are rolling out at the Coca-Cola Bottling Co. of Harrisburg right along with the size so long familiar to the public.

Huge new equipment has been installed and present equipment converted at the big plant at Jackson and Raymond. Now the economy-size 12 ounce bottles of Coke are available as well as the standard six-ounce bottle.

Both the king-size and the standard size are the same design bottles, and the deposit charge is the same for both sizes.

But, the operators tell you, it'll pay to buy the big bottle, because you get twice as much Coca-Cola for less than 50 per cent more money.

### New Bottle Cleaner

To pave the way for the king-sized 12-ounce bottle of Coca-Cola, the owners of the local plant, Ray A. Wolf of Mt. Carmel and his two sons, Tom J. Wolf and Frank J. Wolf, active in the plant operations here, brought in a big new Meyer Dumore bottle cleaner, built especially for the Coca-Cola Bottling Co. of Harrisburg by the George J. Meyer Manufacturing Co. The present bottle cleaner has been dismantled.

This new machine will clean bottles ranging from six to 32 ounces while the old one was made only for six and seven ounce bottles. The new machine, which has been in operation the past three weeks, cleans 120 bottles a minute, or two each second.

### Sold in Cartons, Cases

It's a three-compartment, 12-wide, quarter washer with an empty weight of 36,000 pounds and a loaded weight of 60,000. During operations it uses 30 gallons of water a minute for its washing and rinsing of bottles. First the big machine, so large that part of the wall was taken out to install it, cleans the bottles, then it washes them, then sterilizes them.

The new king-sized 12-ounce bottles are being sold in six-bottle cartons, for home consumption, and in 24-bottle cases, for cooler use, just like the regular-sized bottles.

To conform to the new size bottle, the bottler has been converted into one that will fill and cap all sizes of bottles.

## Ad Campaign to Help Introduce New King Size Cokes

Officials of the Harrisburg Coca-Cola Bottling Company reports that it will spend in excess of \$10,000 for advertising to support the introduction of King Size Coca-Cola in Saline and Gallatin counties.

Newspapers, television, radio and outdoor posters will be mainstays of the advertising campaign. Newspapers included in the introductory campaign are The Daily Register, The Eldorado Daily Journal, The Gallatin Democrat and The Ridgway News.

WSIL-TV will carry the television schedule, and radio station WEBQ AM-FM will carry continuous spot announcements and recordings.

A BETTER IDEA OF THE SIZE of the big washer can be gained from this photo of Coca-Cola employees gathered around the machine as it arrived at the plant for installation. The occasion

was a big event for the Coca-Cola Bottling Company, and all the employees gathered around to watch the unloading and installation. (Register Staff Photo)

New King-Size... *For a king-size thirst, it's mighty nice,  
Just right, too, for "two with ice!"*

*Refreshing news*  
*for people*  
*in Harrisburg*

*Almost everyone appreciates the best... and now you can have it in two convenient sizes—the new King-Size bottle of Coke and the familiar Standard-Size. In either size, it's the real thing... same distinctive taste... same trusted quality.*

## Bill to Permit SIU Engineering Degrees Killed

SPRINGFIELD (UP)—A bill to permit Southern Illinois University to set up degree programs in engineering was dead and buried today, without much chance of being disinterred.

The measure, which had been deadlocked for weeks in the Senate Education Committee, was killed Wednesday with an 8-5 "do not pass" vote by Education Committee members.

Representatives of the University of Illinois had opposed the bill at earlier committee hearings, where the bill was deadlocked with a 5-5 vote.

No witnesses were heard at the Wednesday consideration of the bill.

Sen. R. G. Crisenberry (R-Murphysboro) told the United Press he would not attempt to have the full Senate override the committee action. "I'm not that optimistic," he said. Crisenberry was sponsor of the bill.

He had attempted earlier to have the full Senate force the bill out of committee, but the Senate refused. The bill is "dead" for this session of the Legislature, he said.

Crisenberry said the action of the committee was one good reason for opposing a proposed consolidation of all the board of trustees of the U. of I., the teachers colleges and SIU into one overall board.

The University of Illinois would "dominate" such an overall board, he said. Such a consolidation proposal has been introduced in another bill in the House.

## Ike Boards New Carrier Saratoga

ABOARD USS SARATOGA (UP)—President Eisenhower put to sea today aboard the pride of the Navy, the new 60,000-ton supercarrier, USS Saratoga, for a concentrated 24-hour study of guided missiles, jet operations, anti-submarine warfare and defense against atom bombs.

The chief executive flew from Washington with most of the National Security Council and other top federal officials and boarded this angled-deck "floating air base" at Mayport, Fla.

Eisenhower was welcomed aboard by the screams of two Skyway jet fighters which were catapulted from the massive deck of the carrier while she stood at dockside.

**Water Consumption**  
Use of water for all purposes in the United States has doubled in the past 50 years and is expected to double again in the next 25 years.

## Tips on Traffic Safety

By CHARLES F. CARPENTIER  
Secretary of State

Needless to say, our eyes play a most important part in our driving. If we use them properly by following two simple rules we may avoid accidents.

For one thing, when driving, do not concentrate on small details. But, rather, concern yourself with the general traffic scene. By doing this you can avoid being surprised and saved from abrupt stops and turns. And at night, be on the lookout for dark shapes beyond your headlights. Also, when driving at night, remember that because you see red tail lights ahead, it does not necessarily mean that the vehicle is moving. It may be stalled or, for some other reason, parked upon the highway.

A great many head-on collisions are the result of some drivers insisting upon looking low at the left edge of their lane. They do this because they want to have extra room on the right. A driver should steer

his vehicle by looking far ahead, as if aiming at a target. By doing this, he will have his vehicle traveling in the center of the lane. The left and right edges of the lane should be observed by the lower part of his vision.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

## Jeanne Crain Expecting Her Fifth Child

HOLLYWOOD (UP)—Actress Jeanne Crain and Paul Brinkman Wednesday announced the expected birth of their fifth child in November.

The couple was reconciled New Year's Eve after a hotly contested divorce. They were married in 1945.

### Parasitic Pollinator

The Smyrna fig, grown mostly in Greece, depends on a small wasp to make it grow. It does not grow from a flower, but contains the flowers inside the walls of the fruit and the flowers must be pollinated by the fig wasp, a parasitic insect.

## Racial Problem Up to South's Leaders: Nixon

ASHEVILLE, N. C. (UP)—Vice President Richard M. Nixon told the General Federation of Women's Clubs convention Wednesday night that the South's community leaders must tackle the problem of racial prejudice.

"We must not leave this field to extremists," Nixon said. He urged that community leaders, both white and Negro, "assume the personal responsibility for removing the causes of racial prejudice."

While endorsing President Eisenhower's civil rights program, Nixon said "It may take decades to achieve equality of opportunity for our Negro citizens if we rely on law alone."

The convention rostrum also was to become a sounding board today for a warning by Mrs. Martha A. Shull of Portland, Ore., president of the National Education Assn., that the teacher shortage may last 10 years.

Mrs. Shull, in her address prepared for delivery before the federation's 66th annual convention, predicted a 10 per cent increase in the number of qualified teachers graduating from colleges this year.

But she warned the current shortage "will remain acute for perhaps 10 years."

The federation headed off a floor fight Wednesday over proposed opposition to pay-as-you-see television by switching to a milder resolution urging that Congress "insure" continued free television "as it now exists."

## House Overrides Committee on Corp. Tax Hike

SPRINGFIELD (UP)—Democrats in the House today overturned a committee vote against a bill designed to hike the state corporation franchise tax and bring in another 25 million dollars a year for state school aid.

The House voted, 90-66, to override the House Revenue Committee's unfavorable action on the bill, sponsored by Rep. John K. Morris (D-Chadwick). The bill now goes on the House calendar for passage or defeat.

Democrats earlier had failed three times in an effort to increase the 227 million dollars in Gov. William G. Stratton's 1957-59 budget for state aid to common schools.

Morris said the corporation tax had not been increased since 1919, while other taxes had been substantially increased.

"Why is this a sacred cow?" he asked.

His bill would raise from 1-20th of 1 per cent to 1-2 of 1 per cent the state corporation franchise tax, with the money earmarked for school aid.

He said he would agree to lower the increase to 1-4 of 1 per cent if the proposed 1-2 per cent rate would bring in substantially more than the 50 million dollars which he considered necessary in additional school aid for the next two years.

House majority Leader John W. Lewis Jr. (R-Marshall) said the tax increase would drive industry out of the state.

A flea is a small, wingless insect and distribute as many as 500 species of which are known.

**Old Folks Need Love and Security**

IOWA CITY, Iowa (AP)—A University of Iowa nursing official has a simple — but effective — rule for helping elderly, sick people — make them feel important and wanted.

Elizabeth Kerr, director of practical nursing at the University, said elderly patients need to be loved, made to feel secure and important and wanted just as much as they have at any time in their lives.

Speaking to nurses in particular, Miss Kerr said they should avoid being over-protective. This is just as bad as not giving the elderly patient ample consideration, she said.

## Coal Ass'n Says Gov't Favors Oil, Natural Gas

WASHINGTON (AP)—The head of the National Coal Ass'n today accused the administration of favoring oil and natural gas over coal in the competitive battle for the nation's fuel markets.

N. Newton Thomas, Charleston, W. Va., said administration policies have relegated coal to a "Cinderella role" and have given it the job of "a stand-by fuel in times of stress."

As examples of "favoritism" to coal's two biggest competitors, Thomas cited the "more realistic" depletion allowances granted oil and natural gas and a 4 cent per ton transportation tax on coal not levied on other fuels. Oil and gas producers are allowed to deduct 27 1/2 per cent of their income as depletion allowance before calculating their income tax, coal, 10 per cent.

He urged his industry to "impress the right people in the proper places that a reasonable delivered cost is essential to the maintenance of an adequate supply at economic prices."

Undersecretary Hatfield Chilson said the coal industry can continue to expand if it increases its research programs, attracts more growth capital, and increases its all-around efficiency. Chilson said these programs must be tackled by the industry itself. "As you work at them and thereby contribute to the growth of the American economy, we in the government shall do whatever we can to help," he said.

Federal Maritime Administrator Clarence G. Morse urged the coal industry to get into the maritime shipping business like the oil operators have.

He pointed out that coal now is hauled primarily by tramp steamers flying the flags of virtually every maritime nation. American ships carry only 5 per cent of the total coal exported.

"Like the oil companies, you should own a substantial number

## Paris School Official Indicted In Beating Incident

PARIS, Ill. (AP)—Karl R. O'Hair, 70, a prominent Paris citizen and president of the local school board, has been indicted on charges growing out of the beating of a local newspaper publisher by four boys.

O'Hair was indicted by the Edgar County grand jury Wednesday for alleged conspiracy and contributing to the delinquency of a minor. Also indicted in the same case for aggravated assault was Howard (Jake) Andrews, 71, Paris.

Both men were tentatively scheduled for arraignment in Circuit Court here Saturday. O'Hair posted \$2,500 bond, Andrews \$1,000.

The newspaper publisher, Edward H. Jensen, 42, was severely beaten and hospitalized here March 25. He was attacked by four youths who said O'Hair had hired them to follow Jensen and beat him.

Jensen is publisher of the Paris Beacon News and is a former congressman.

The youths, ranging in age from 16 to 19, charged that Andrews had pointed Jensen out to them before they beat him. The four youths earlier pleaded guilty to charges of assault and battery and each was fined from \$30 to \$40.

Last month O'Hair pleaded guilty to an assault and battery charge growing out of the case and was fined \$100.

Jensen said earlier the incident apparently resulted from a misunderstanding and that O'Hair apparently believed Jensen had tried to hire away a young secretary who worked for O'Hair.

of modern colliers in operation and available to serve as a governor against the time when the freight market is too high—or when, for some reason, foreign flagships are unavailable," Morse said.

# ASC Starts Checking Compliance With Agreements by Farmers

Checking of Saline county farms to determine compliance with acreage allotments and soil bank agreements and contracts will soon be under way in all townships, it was announced this week by Herman Driskell, chairman of the county ASC committee.

Virtually all farms must be visited by representatives of the county ASC office to make either an accurate determination or an estimate of acreage in certain crops. In most instances, the inspection will be made by ASC community committeemen, serving as "performance reporters." They will work singly since farm operators are expected to assist in any necessary acreage measuring. Farmers are urged to give maximum cooperation for the protection of their own interest, and to facilitate the reporters' operations.

Following are the general requirements involved in the farm checking work, which is scheduled to be completed by July 15 if weather and crop conditions will permit:

**WHEAT** — All wheat is subject to allotments and marketing quotas. It has already been checked but performance reporters will be on the lookout for any fields of wheat not previously noted or reported. Full compliance with the farm's wheat allotment is required

to qualify for price support on wheat. If the allotment is exceeded, a marketing quota penalty must be paid on the excess wheat except that any farmer may raise as much as 15 acres without being subject to a quota penalty. A farmer who has a soil bank wheat acreage reserve agreement must reduce his allotted wheat acreage to the extent provided by his agreement.

**CORN** — Any farmer who does not wish to qualify for price support on his corn and who is not participating in the soil bank is not required to be in compliance with his corn allotment. His corn acreage will be estimated by a performance reporter, instead of being measured or otherwise being accurately determined. Later, but prior to the compliance deadline, which will probably be August 1, such a farmer may get into compliance by paying ASC for the cost of measuring his corn acreage and by disposing of any excess by discing or plowing under. Corn acreage will be measured on all farms whose operators wish to comply with their allotments to qualify for price support, on all farms which must be within their corn allotments to qualify for wheat acreage reserve or conservation reserve payments, and on all farms which must be under their allotted corn acreage to

## Thinking It Over

By Robert L. Dieffenbacher, D.D.  
(Written for NEA Service)

Birthdays are very important to certain people. They mark milestones along the way through life. Many birthdays indicate new beginnings. Some mark the end of certain phases of life.

Age is an important factor in figuring income tax deductions. It determines the price of admission to entertainment and transportation fares. It is of prime importance in the purchase of insurance, and in occupational placement.

The year of our birth is of no importance in our relationship with

meet the terms of corn acreage reserve agreements. Any such producer found to have excess corn will be notified by mail of the amount of the excess and the deadline date for getting into compliance.

**ACREAGE RESERVE** — All acreage reserve tracts must be measured. Furthermore, acreage reserve farms must comply with all allotments established for the farm except that acreage of wheat grown within the 15 acres permitted under quotas will not disqualify the producers from corn acreage reserve payments.

**CONSERVATION RESERVE** — In most instances, designated conservation reserve land and total cropland by fields have already been measured on conservation reserve farms. Now, the total acreage put to soil bank base crops in 1957 must be measured to determine if the required reduction has been made.

God. He accepts all ages. He forgives the sins of young and old alike. He bestows His love on children and adults. His requirement is that we think simply as children and that we have the faith of little ones.

### Population Drops

RIVERDALL, N. D. (U.S.) — The population of this government construction town, which grew out of the prairie near the Garrison Dam site, has dropped to 412 families. It hit a peak population of 4,000 in 1934.

## Bishop Zuroweste to Officiate Sunday At Confirmation and Ground Breaking

His Excellency Most Rev. Albert R. Zuroweste, L. D., Bishop of Belleville, will pay official visits to St. Mary's Catholic Church of Shawneetown and St. Patrick's of Pond Settlement Sunday.

At 2:30 in the afternoon he will administer the Sacrament of Confirmation to a large class of 40 youths and several adults from the two parishes at ceremonies to be held at St. Mary's. The men of the Holy Name Society will form a guard of honor for the bishop on his entry into the church. The pastor, Rev. John Stallings, urges all parishioners to be on hand for this occasion.

Following the confirmation services (approximately 4:00 p. m.) Bishop Zuroweste will officiate at official ground breaking ceremonies for construction of St. Mary's new church building. The site is located across the road east of the George M. Scherrer residence.

The general public and the parishioners are invited to attend these ceremonies.

Sunday morning at 7:30 Mass First Communion services will be held at St. Patrick's, and at 9:30 Mass First Communion services will be held at St. Mary's.

The two-weeks Summer School being conducted by Sisters of the

etia Drone, Joan McGuire and Judy Rider.

**JUNIORS**—Joyce Hale, Linda Miner, A. J. Moyer and Larry Wilson.

**SOPHOMORES**—Mary Ellen Abell, Anna Combs, Ann DeVous, Mary Hill, Barbara Hise, Betty Schmitt, John Schmitt, Gary Upchurch and Bob Wargel.

**FRESHMEN**—Mary Beth Brockett, Sheila Kirby and Barbara Spence.

**Honorable Mention**  
Seniors—Carolyn Atkins and Gail Sauls.

Juniors—Kay Bates, Jane Bennett, Sue Schmitt and Dennis Grubb.

Sophomores—Linda Dixon, La-donna Harrington, Dianna Howell, Carol Kaufman, Judy Naas, Cecilia Schiff and Becky West.

Freshmen—Minnie Couser, Bobbie Gass, Sharyon Grant, Georgie Meade, Ida Nell Mitsdarffer, Jeanette Reynolds, Kay Suttner, Roger Downey, Gary Drone and Jerry Moyer.

## Shawneetown

### Citizens to Meet With Coal Officials

The Shawneetown Kiwanis Club is sponsoring a public meeting Tuesday night at the Legion hall at which several officials of the Stonefort Corporation, large coal mining firm with headquarters in Indianapolis, Ind., will be present.

The main purpose of the good will meeting is for the mining officials to become acquainted with the local business men and other interested citizens of the community. Slides will be shown including the construction and operation of mines by the Stonefort Corporation.

This firm has optioned large acreages in the Bowlesville community and officials report that the coal rights and some land are now being purchased.

Prior to the open meeting, several of the company's officials including Sam Sherwood, will be guests of the Kiwanis Club at its dinner meeting to be held at the Crossroads Restaurant.

It is believed that this firm will set up mining operations on a large scale in the near future if proper land purchases and leases can be arranged.

Business men are especially urged to be present at the Tuesday night 8:00 o'clock meeting at the Legion hall.

**Highest**  
Highest point on the Atlantic coast of the United States is Cadillac Mountain, on Mount Desert Island, in Maine, which is 1,530 feet high.

### Area Toastmasters

#### Clubs to Picnic at Evansville June 27

Area Governors, Clifford Coke and Vincent Miller, have announced the Area Five Toastmasters' picnic will be held June 27.

This annual event will be held at Ruthenburg Field near Evansville. Area Five is composed of the following clubs in the Tri-state: Booneville, Carmi, Harrisburg, Henderson, Mt. Vernon (Pinnacle), Owensboro, Paducah, and the Evansville clubs' Number One, Adelphia, Evandine, Foremost, Servel, and Whirlpool.

Host clubs will be the Servel, Foremost, Number One and Whirlpool—all of Evansville.

Officers of the Harrisburg club are: Loy Barger, president; Dr. A. O. Steinborn, administrative vice president; Glenn Dunbar, educational vice president; Kallie Sadler, secretary and treasurer; H. V. McDaniel, sergeant at arms.

It's June!

# Refresh with MILK

Illinois Dairy Farmers have a wonderful treat in store for you this month. Delicious and wholesome dairy foods at your food store, restaurant and dairy. In June, when dairy pastures are green and lush—milk, real butter, ice cream are at their finest. Cheese and real cream, too. And, of course, so many good dishes taste even better when they're enriched with evaporated or nonfat dry milk. This month, enjoy good Illinois-produced dairy foods often. They are delicious, wholesome and thrifty, too.

## AMA to Probe Use of Stimulants by Athletes

NEW YORK AP — The American Medical Assn. has ordered an investigation into the "shocking use of stimulants by amateur and professional athletes."

Charges of "indiscriminate" use of stimulants by athletes, including school children, were made before the AMA's 106th annual meeting Wednesday by Dr. Herbert Berger.

Berger, chairman of the New York state Medical Society's committee on narcotics and alcohol addition, told the AMA "the recent rash of four-minute miles is no coincidence."

## Downstate Fisherman's Guide

### Area's Lakes and Streams Still Recovering from Pounding by Weather

By Pete Brown  
(From reports by the Illinois Conservation Department and the Southern Illinois University; Cooperative Fisheries research Laboratory).

By Memorial Day Southern Illinois lakes and ponds were still trying to recover from the beating of the previous week, and although the fishermen were out in brigades not many of them were notably successful.

Little Grassy Lake, still dingy but clearing, produced the best catches of bass. Surface lures were getting lots of attention, but Bombers and Helldivers remained reliable baits. The crappie-bluegill play also began to pick up at Grassy.

Some of the top catches at Little Grassy: Carl Vickers, Centralia, a six pounder; George Swingle, Mt. Vernon, two four pounders and a pair in the two pound class; George Rose and company, Benton, 19 averaging three pounds; Ira Casper, Cobden, three totalling 10 pounds; Don Bennett, Carmi, two five and one-half pounders, one at six and one-half pounds, and three at two pounds.

Fishing below the Little Grassy spillway has been slow. Crappie, yellow bass and carp have accounted for most of the action at Crab Orchard Lake, which is still extremely turbid. The strippers are running about six inches in length.

Lake Moses, when checked May 30, was in good fishing condition, but movement of bluegill, crappie and bass had slowed down somewhat. The best haul of the week was made by an unidentified trotline fisherman. Using slugs for bait, he reaped an overnight harvest of 125 bullheads averaging 10 inches to a foot long. Worms and crayfish are also used, but are more tempting to carp and other roughies than the slugs.

Lake Murphysboro is high and murky and fishing has been poor throughout the week. A four pound channel catfish and several medium sized bass caught by fyrod angler Bob Ellis, Murphysboro, represented the best yield. He was using worms.

Sahara Lake survived the big blow in good shape, and bluegill fishing remained steady—although not as remarkable as it was early in May. The fish being caught are mostly females; few of the big, black males are showing up.

Horseshoe Lake was returning to normal by Memorial Day and a few strings of heavy crappie came through the docks. A minnow fisherman boated a six pound bass at Pinckneyville City Lake, May 30, the best catch of the week. Crappie and bluegill returns have been sporadic.

Clear Creek is slightly dingy, which is its best condition for fishing. What few anglers have visited it have found the Kentucky spotted bass and longears hitting well.

Roy Dover, of Jonesboro, grabs the grand prize for the heaviest catch of the week—a 110-pound alligator gar he wrestled to a clear-cut decision in Clear Creek backwaters near Reynoldsville. He snared it with pole and wire, and hauled his 15-foot long catch away in a pickup truck.

### High School Boy Fatally Stricken During Ball Game

EAST CHICAGO, Ind. AP — A high school boy dropped dead of a heart attack moments after crossing home plate to become the second youth to die on the baseball diamond in the Illinois-Indiana area in as many days.

The victims, both 15, were avid baseball fans. Harold L. Hedinger apparently suffered a heart attack as he crossed home plate in a gym class softball game at Washington High School here Wednesday.

A Vandalia, Ill., boy, Tommy Greer, was killed Tuesday when he and another youth collided chasing a pop fly in a Pony League game at Vandalia.

## 7 Teams in State Baseball Finals

PEORIA, Ill. AP — Seven powerful teams will contend today for a chance to take the Illinois State High School baseball championship from the defending champs, Lane Tech of Chicago.

Lane Tech will be bucking the odds because only one other team in the 18-year history of the event captured the crown twice in two years.

Peoria Manual did it in 1950, climaxing a perfect season of 25 wins and no losses with the championship.

The pairings today: Danville vs. Mount Carmel 1:30 p. m.; Lane Tech vs. Bloomington at 3:30 p. m.; Waukegan vs. Rock Island at 7; and Proviso vs. Staunton at 9.

All games will be on the Woodruff Field diamond.

### Yankees' Yogi Berra Injured

CLEVELAND AP — The New York Yankees today faced the prospect of being without the services of catcher Yogi Berra for an indefinite period because of an apparent nose fracture he suffered against the Cleveland Indians Wednesday night.

X-ray pictures will be taken today of Berra's nose, club trainer Gus Mauch said.

"His nose is badly swollen," Mauch said, "but we are not sure exactly how serious the injury is."

Berra suffered the injury during the second inning of Wednesday night's game, which the Yankees won, 13-3.

A foul tip from the bat of Larry Raines of the Indians struck the bar on Berra's mask and the impact from the ball drove the bar of the mask against the Yankee catcher's nose.

## Gil Turner Wins Decision Over Yama Bahama

MIAMI BEACH AP — Gil Turner's unrelenting fists won him an upset split decision over Bimini's Yama Bahama in a 10-round fight Wednesday night, but his manager ordered him to a hospital with a painful head injury which doctors said was not serious.

Turner, 26-year-old Philadelphia, suffered a torn vein under the skin of his forehead and a possible concussion while battering through the defensive maneuvers of the swarthy Bahaman before 2,068 fans at the Miami Beach Auditorium. The bout was nationally televised.

Turner was taken to Mt. Sinai Hospital to spend the night under observation at the request of his manager, George Katz. The hospital said at midnight most of the swelling in Turner's forehead had gone down and he was "feeling fine."

Turner, whose victory Wednesday was sweet revenge for a loss to Bahama in Madison Square Garden last June, said he thought he received the head injury during the final three rounds "from butting."

## Reds Defeat Phillies, 4-2, In 11 Innings; Dodgers Blank Cubs, 4-0; Cardinals Win, 5-1

By United Press

Birdie Tebbetts likes to kill 'em with kindness, so first he says the Phillies can "go all the way" and then his Cincinnati Redlegs promptly go out and beat Philadelphia to move two games ahead again in the frantic National league pennant race.

That's the way it happened Wednesday night.

Prior to the game, Tebbetts, that master psychologist, praised the Phillies to the skies, pointing out they might even win it all, especially now that they have a smoothie such as Chico Fernandez at shortstop. So what happens.

Fernandez commits an 11th-inning error that helps the Redlegs to a 4-2 victory.

Gus Bell started the 11th by being safe on Fernandez's bobble. With one out, pinch hitter Jerry Lynch lined an apparent single to center field but the ball took a bad-hop past Richie Ashburn for three bases, scoring Bell. Roy McMillan singled home the second run of the inning off loser Dick Farrell and reliever Johnny Klippstein was credited with the triumph.

### Dodgers Advance

Brooklyn took over second place by beating Chicago, 4-0, at Jersey City; St. Louis defeated Pittsburgh, 5-1, and Milwaukee nipped the New York Giants, 9-8.

The Chicago White Sox maintained their five-game lead in the American league with a 6-2 decision over the Boston Red Sox; the New York Yankees crushed the Cleveland Indians, 13-3; Detroit licked Washington, 3-2, in 11 innings, and Kansas City defeated Baltimore, 3-2.

Don Drysdale, the Dodgers' 20-year-old side-arm, set the Cubs down on five hits in pitching his first major league shutout. Don Kaiser absorbed the loss.

The Cardinals hopped on Pirate starter Bob Friend for four runs in the first inning. Wally Moon homered while Lindy McDaniel snapped Pittsburgh's four-game winning streak by giving up only five hits while striking out eight.

Nine home runs were hit in the Braves' victory over the Giants, including a three-run homer by reliever Ernie Johnson, who was credited with the victory. Joe Adcock and Bobby Thomson also homered for Milwaukee while Red Schoendienst and Hank Sauer each hit two homers for the Giants and Willie Mays and Whitey Lockman had one apiece.

Dick Donovan pitched the White Sox to their seventh victory in the last eight games by holding the Red Sox to eight hits. The White Sox went ahead to stay with two runs in the fifth, Billy Klaus' error allowing one of the runs to
